

Starting with your back to the shop and Royal Oak **1** turn to the **R** and keep to the **L** of the school on to Huntham Lane. Walk along past Sturts Farm till you see a Bristol Gate **2** on your **L** into an orchard. Go through that and through the pedestrian gate at the end. Keeping to the **L** walk through three fields (gateways can get very muddy) and then through a gate **3** on your **L** into a field at a higher level - it can be very muddy at the bottom of this stile. Follow the hedge on your **R** and go over the stile **4** and along a clear fenced off path past another orchard and through a gate. Follow the path to a kissing gate at Windmill **5**. Turn **R** and follow the road to the end. Go **R** at the end **6** and slightly diagonally across to a corner which sticks out and follow along that hedge till a gap. Go **R** over that bridge **7** and across the field with the hedge on your **L** and through a pedestrian gate into a field at a lower level **8** - the little slope can get slippery, but is due to be replaced by steps. Follow alongside Sedgemoor Old Rhyne and through a Bristol gate **8a** into the next field and across there to the opposite hedge and follow that up to the **R** till you reach another pedestrian gate. **9** Go through this into a narrow field and turn **R** up the hill keeping alongside the hedge and through the gate at the top **10**. Turn **R** and follow the track with the hedge on your **R** turning **L** at the corner (not through the gateway) and then **R** continuing to follow the hedge to a Bristol gate **11**. Go through that and slightly diagonally to the bridge over the rhyne and then across the field to the pedestrian gate back into the first orchard you crossed and walk back to that Bristol gate and into Huntham Lane **2**. Turn right and back to the shop and Royal Oak.

Walk 1

Huntham - Windmill - Sedgemoor - Huntham

Distance 3.7 km (2.3 mls), through lanes and fields (some with stock). One stile. *Updated June 2026*
