

Starting with your back to the shop and Royal Oak **1**, go **R** past the school on Willey Road and through the gate on the **L** beside the school **2**. Follow the path to the end and straight across Huntham Close and down the path directly opposite and into the field. Go almost immediately to your **L** **3** and along a narrow path between a hedge and a fence to a gate and bridge into the next field. Go straight ahead and then round to the **R** **4** when you reach the opposite hedge and then over the bridge **5** and stile which is on your **L** into the next field. Walk diagonally over towards the kissing gate in the hedge - this is the right of way - **6** (or walk round the edge of the field which can be easier) and then follow the field edge round to your **L** and along to the end **7**. Turn **L** and down through this field and the next one and the following one coming out into Huntham Lane **8** and go straight ahead - again the gateways can get muddy. Turn **L** **9** at the first opportunity along past Huntham Farmhouse. Keep on this track and when it divides in to two **10**, take the lower track through the Bristol gate alongside the orchard and follow it round to the **R** into a drove - again this can be very muddy and rutty - take care. Follow the track round the field turning **L** when you reach the opposite hedge **11** - don't go through the gate opposite - keep following that hedge on your **R** round to the **L** and then **R** till you reach a Bristol gate **12**. Go through that and diagonally to your **L** towards the hedge and over the rhyne then **13** diagonally towards a pedestrian gate **14**. Walk through that into an orchard and walk towards the gate straight ahead **15**. Go through the gate on to Huntham Lane and turn right. Keep walking till you get back to the shop and Royal Oak **1**.

Walk 4

North and South of Huntham Lane

A level walk through fields, sometimes containing stock.
Distance 3.3 km (2 mls). Two stiles.
